[submitted electronically]

Dear Sir or Madam:

This document is a Supplemental Information Disclosure Statement to the above-referenced patent application.

Attached is form PTO/SB/08a listing documents believed relevant to the subject application. The submission of the following information is not intended, nor should it be construed, to constitute an admission that any patent, article, or other information referred to herein is "prior art" unless specifically designated as such. In accordance with 37 C.F.R. § 1.97(b), the filing of this information

shall not be construed to mean that a search has been made or that no other material information may exist. Neither should its submission be construed to indicate that a thorough search should not be conducted by the Examiner.

It is believed that this disclosure complies with the requirements of 37 C.F.R. § 1.96, § 1.97, and § 1.98 and the Manual of Patent Examining Procedures § 707.05(b). If for some reason the Examiner considers otherwise, it is respectfully requested that the undersigned be telephoned at (858) 200-0586 so that any deficiencies can be remedied.

The references recited in this Supplemental Information Disclosure Statement were cited in a European Search Report dated July 5, 2007. Therefore, each item of information contained in this Supplemental Information Disclosure Statement was first cited in any communication in a foreign patent office not more than three months prior to the filing of the Supplemental Information Statement, pursuant to 37 C.F.R. § 1.97(e)(1), and, pursuant to 37 C.F.R. § 1.97(c)(1), no fee is due even though an Office Action on the merits may have been mailed.

A copy of each document is enclosed, except for issued United States patents and published United States patent applications pursuant to 37 C.F.R. § 1.98(a)(2)(ii). Some of the documents may have markings thereon. No significance is to be attached to the markings. These documents are not necessarily analogous art. Additionally, the order of the following documents is to be accorded no

particular import, as the order thereof is completely fortuitous.

It is respectfully requested that these documents be:  
(1) fully considered by the Patent and Trademark Office during the prosecution of this application; and (2) represented on any patent which may issue on the application. Applicant respectfully requests that a copy of form PTO/SB/08a, as considered and initialed by the Examiner, be returned with the next communication.

Respectfully submitted,
